

#### IEC EX INSTALLATION AND TESTING (IECEX COPC MODULES 003 AND 006)

#### Introduction

This course covers the explosion protection aspects for installing, testing, and maintaining explosionprotected and associated equipment and wiring systems.

This course is based on various parts of the IEC 60079 series.

## **COURSE OVERVIEW**

This course will provide the attendees the ability to match equipment with that specified for a given location, whilst working safely and to installation standardscompleting all necessary documentation.

As well as, the ability to develop and manage plants maintenance schemes, incorporating strategies for inspections, repair, overhaul, replacement following manufacturer guidelines.

# AS IEC 036 IECEX 003, 006

#### **COURSE CONTENTS**

- Prepare for installation of equipment and wiring
- Installation of equipment and wiring systems
- Prepare to carry out testing
- Carry out testing
- Complete documentation

#### **COMPETENCE ASSESSMENT**

Prior to assessment candidates should be sure to have an understanding of:

- Common characteristics of explosion-protection techniques
- Standards for installation in hazardous areas
- General requirements for testing in hazardous areas
- How to take actions to limit risk of an explosion
- Methods for compliance
- Ex certification schemes
- Ex principles
- Explosion protection checks
- Flameproof (Ex 'd') explosionprotection technique
- Increased safety (Ex 'e') explosion protection technique
- Type of protection 'n' (Ex 'n')
- Intrinsic safety (Ex 'i') explosion protection techniques

In order to provide the highest quality training experience, this course consists of the following instructional elements:

• Presentation – The core elements of skill will be presented and demonstrated in a classroom environment or via EUTEX elearning platform.

 Certification – On demostration of competencies required (assessment) candidates will be awarded IECEx competencies 003 and 006.

The awarded IECEx certificate of personnel competence is issued by our approved IECEx certification body.

### **COURSE DETAILS**

## Target Audience

Good electrical Ex knowledge

### Location

All EUTEX Training Centers or at the clients facility subject to minimum number of students

#### Duration

1.5 days of training and 0.5 day for assessment or online at own pace and 0.5 day for assessment
